

One-of-a-kind design

Winger Ambulance incorporates an innovative design unmatched by other ambulance vehicles. Both its engine and driveline compartment have been compressed, to maximise interior space. There is enough room for a patient and attendants, providing comfort for all.

Patient Cabin Dimensions

Variant	Wheelbase (mm)	Internal length (mm)	Internal height (mm)	Internal width (mm)
Winger Flat Roof Non-AC Ambulance	2800	2335	1517	1650
Winger High Roof AC Ambulance	3200	2755	1900	1650
Winger High Roof AC Ambulance (Shell)	3488	3288	1900	1650

No wonder, it's spacious enough to be your 'Hospital-on-Wheels'!

Smooth ride for patients

Every variant of Winger Ambulance is designed to ensure maximum safety and comfort for the patient.

- Monocoque construction ensures low car-like noise, vibration and harshness (NVH) levels
- Front independent suspension, anti-roll bars with hydraulic shock absorbers and radial tyres ensure a bump-free ride. Together, these features add up to zero stress and 100% comfort for the patient

Dual AC for patient comfort

Dual AC in the High Roof Ambulance ensures efficient cooling and better air flow. This helps keep both patients and medical personnel comfortable, thanks to features like:

- Front AC for faster cooling even in extreme heat conditions
- Upgraded Roof Mounted AC with multiple air vents for uniform cooling
- Improved air suction vents in Roof Mounted AC for lower noise levels

Easy entry & exit

All three variants of Winger Ambulance have features that enable easy entry and exit. In the ambulance variants with short or medium wheelbases, this is possible because the rear door opens 180 degrees outward and the floor height is low at 480 mm. The ambulance variant with a long wheelbase (shell) comes with a rear door that opens 270 degrees outward - making entry and exit a lot easier for the patient and attendants.

Assured safety

Efficient brake system with Load Sensing Proportioning Valve

Low centre of gravity ensures better stability

Fog lamps offer excellent visibility during winter

Anti-roll bar in front & rear

Side impact beams on both sides

Right at your doorstep

Driving Winger Ambulance is easy, particularly on narrow roads, thanks to its two distinctive features:

Short turning circle radius which is best in its class
 Power steering

Low maintenance costs

International in looks, yet 100% indigenous, Winger Ambulance ensures low maintenance costs. It comes with a warranty of 18 months/1,50,000 km, to set your mind at rest. Above all, it offers 10 unmatched services - FREE!

3 variants to choose from - Flat Roof Non-AC, High Roof AC & High Roof AC (Shell)

Winger Flat Roof Non-AC

Wheelbase 2800 mm Length 4520 mm • Height 2050 mm Width 1905 mm • Engine Type 65 HP NA

Winger High Roof AC

Wheelbase 3200 mm Length 4920 mm • Height 2445 mm Width 1905 mm • Engine Type 90 HP TCIC

Winger High Roof AC (Shell)

Wheelbase 3488 mm Length 5458 mm • Height 2460 mm Width 1905 mm • Engine Type 90 HP TCIC

Indeed, Winger Ambulance is a choice hard to match and an investment hard to resist.

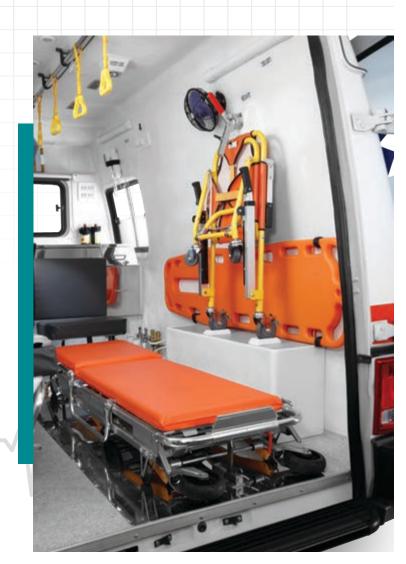

Scope for customising Winger

To meet your specific needs, Winger Ambulance can be customised as a Mobile Medical Unit, Critical Care Unit (Advance Life Support Ambulance), Blood Transportation Van and more. Some of the features that can be added in Winger Ambulance are:

- Driver partition with communication window
- Anti-skid flooring with stainless steel lining below the collapsible stretcher
- SS 304 lined plywood medicine cabinet also provided, for equipment storage
- Wash basin with foot-operated tap & water dispenser of 5-ltr capacity
- Portable steel dustbins with spring-loaded lids, for waste disposal
- Foldable doctor's seat plus squad bench to seat 4 persons; internal storage space for extrication kit
- Hatrack with sliding glass side doors for additional storage space
- Footstep for easy entry and exit
- Grab rail with IV hooks
- 50 Hz 800 VA inverter; integrated AC/DC supply in vehicle synchronised with:
 - Light bar rhombic-shaped double layered structure with integrated PA system
 - 6 high intensity flashers on sides and rear of vehicle
